

# Interior Solid Core Doors

**70%**  
more sound  
dampening  
material

than our standard hollow core doors

## Make Solid Core the Standard

With 70% more sound-dampening material than our standard hollow core doors, Masonite® solid core interior doors ensure noise control and privacy. No matter the home design or budget, you can add value for customers with solid core doors.

## High-Quality Homes Deserve High-Quality Interior Doors

Set a new standard with solid core, a sound-dampening solution that reflects the quality of the homes you build. These interior doors are more durable and less likely to warp over time, resulting in fewer callbacks. Homeowners will be able to see — and feel — the difference.

### Solid Core Door Styles

All Masonite® flush and molded doors are available as solid core. See just a few below.
