

THE 2024 VINTAGEVIEW SOURCE GUIDE

2024

VINTAGEVIEW®
MOVING WINE STORAGE FORWARD

A LETTER FROM THE CEO

This distinctive wine rack I am holding has our story welded into every precise curve.

The W Series Wine Rack is the metal storage option that fundamentally changed the way design/build professionals approached the wine cellar when we debuted it in 2001. Its mix of quality and beauty continues to allow talented folks like you to creatively move wine rooms out of basements and into architectural features in homes and restaurants.

Not only is it the original label-forward wine rack, but it serves as the foundation for VintageView, the most innovative bottle storage company in the world. Don't be fooled by imitations. VintageView remains the mark of excellence.

As we celebrate our 23rd year serving the industry, we use our 2024 Source Book as a chance to tell the story of our evolution as your best partner in wine cellaring. Our first wine rack hasn't changed much over the years — why mess with perfection?!? — but we sure have, bringing dozens of other superior products to your repertoire.

Follow our timeline in the pages ahead to see how far that one elegant wine rack has pushed the envelope. Enjoy dozens of sophisticated, real-world inspiration examples created by the most talented people in the business. Then, please connect to us with ideas, questions, projects, and anything else on your mind.

Because we know that the world's best metal wine racks are only as good as advertised if we back them with world-class support.

Let's raise a glass to inspiring design.

Charles Malek

W SERIES

The original label-forward wine rack, inspired by a desire to visually connect with beloved bottles, stands the test of time. The W Series Wine Rack is the benchmark for inspiring wine cellar design.

 = finish  = bottle capacity
528

2002 A feature in the Wine Spectator introduces the world to the “vintage view” — or label forward — wine rack. Major wine cellar builders soon become decades-long partners in design.

513

[LEFT] Label-forward racking gains popularity as the preferred choice for visual wine cellars in premier hospitality locations. It enhances any design choice, including this transitional private club, by maximizing capacity without compromise. [ABOVE] The demand for variety leads to innovations like the "Presentation Row" — a distinctive punt-out wine rack.

2005

Realizing the demand for floating wine walls, we develop the W Series Frame, moving bottles in front of stone walls, against glass, and into rooms as dividers.

The 'jewel box' serves as a prime example of W Series Frame's design prowess. The integration of glass racking not only showcases its capabilities but also upgrades the visuals of the space. More simply, it creates an immersive experience that transcends mere storage.

W Series Wine Rack Frame System | Double Sided

2009 The original wine bottle green finish is retired, replaced by matte black, the first of five superior finishes to join the collection. Also, the Island Display Rack debuts to fanfare, adding a freestanding option to the lineup.

Mr. Jim Design Webster Groves, Missouri

Set against a stone wall, the W Series Island Display Rack stands as a bold statement in wine presentation. Its sleek and versatile design creates a striking contrast, transforming spaces into an extraordinary showcase of a wine collection's elegance and style.

VINO SERIES

This is where our innovative design meets the distinctiveness of a peg system. Vino Series Pins and Rails add a touch of sophistication to expansive collectors' cellars or stand on their own for unique, minimalist wine features.

 = finish  = bottle capacity
528

Stepping into an elegant Los Angeles cellar shows off a bespoke, grid aesthetic easily replicated on a variety of installation surfaces be it stone, drywall, or wood.

A true testament to design ingenuity, Vino Rails serve as a dynamic cork-forward pin option, bringing heightened levels of contemporary charm to the cellar.

Vino Rails Post System | Double Sided

Let us direct you to VintageView installations nearby.

Expert Referrals

We have amazing wine cellar building partners in most major cities in the United States, Canada, and Europe.

Even with infinite custom cellar possibilities available using VintageView's elegant, modular systems, certain projects call for something even more special. For more than two decades, we've put the same effort and attention to detail to build custom metal work for our beloved clients.

Semi Custom

Standardized pricing with a quick design process for items we know you want, but we don't stock. Delivered in 10 to 12 weeks of order.

Examples: Matte Black Luxe W Series Wine Rack; Cool Gray in W Series, Vino Series, Case & Crate, and Wine Wall products; Case & Crate Locker or Bin 1 heights; Any standard racking in Chrome or Gunmetal plating, or Golden Bronze powder coat; Vino Series Acrylic Panels (wall or floor-to-ceiling mounted)

Full Custom

Take your imagination to the max! Each project will be custom designed, quoted, and fabricated (delivered in as few as 99 days).
